AHMED ABD ELMONEIM

UI/UX Designer

Giza, Egypt | +20 115 746 6902 | ahmedabdalmanaem49@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

UI/UX Designer working on mobile apps, dashboards, and websites for products in Egypt and Saudi Arabia. The sole designer at Softwares Idea Co., covering eSIM services, customer support tools, e-commerce, food ordering, and sports. Work includes user flows, wireframes, interactive prototypes, design systems, and developer handoff, with a background in Flutter and front-end fundamentals.

CORE COMPETENCIES

Research & Strategy: UX Research, Usability Testing, User Flows, User Feedback, Stakeholder Requirements

Product Design: Mobile & Web UI, RTL Interfaces, Wireframing, Prototyping, Interaction Design, Design Systems

Tools: Figma (Auto Layout, Components, Tokens, Variables), FigJam, Adobe Creative Suite, Framer, Webflow

Collaboration & Development: Developer Handoff, Design Reviews, Agile Teams, Miro, Notion; HTML, CSS, Flutter, Firebase

PROFESSIONAL EXPERIENCE

UI/UX Designer | *Softwares Idea Co. — Egypt Branch* **May 2025 – Present**

- Own UI/UX design as the sole designer across the company's mobile apps, websites, and dashboards, working with stakeholders and developers from initial flows through handoff.
- Simlo (App Store) & OFUQ (App Store): Design eSIM apps covering destination search, plan selection, checkout, installation guides, and SIM management. OFUQ is available on the App Store and Google Play.
- Tajwal (App Store): Redesign the eSIM app and website, including onboarding, local and regional packages, purchase flows, and partner and influencer landing pages.
- Tajwal Dashboards: Design interfaces for customer service, supervisors, managers, resellers, influencers, and executives, covering orders, partners, refunds, and reporting.
- Qrep: Design a customer support platform for ticket handling, conversations, shift schedules, employee presence checks, and performance reports across web and mobile layouts.
- Plus 90+: Design a football app with live match views, news, team and player statistics, favourites, and light and dark themes.
- Double Slash Coffee: Design a Saudi café app with drink customisation, checkout, branch and car pickup, order tracking, and loyalty rewards.
- LP Store (App Store): Design a fashion shopping app with product browsing, size and colour selection, cart, checkout, and order tracking, including iPad layouts.
- Momken: Design the seller interface for a marketplace, covering merchant registration, store approval, subscriptions, product management, orders, invoices, and messages.
- Quip Solution: Redesign the website for a car wash equipment company, covering product discovery, services, and quotation requests.

UI/UX Designer | *Pure Minds Media — Riyadh, Saudi Arabia* **Feb 2025 – Apr 2025**

- Redesigned the company website with animated UI concepts and presented the designs to stakeholders.
- Created wireframes and UI screens for an internal platform for team communication and task management.

Freelance UI/UX Designer | *Remote — Clients in Egypt & Saudi Arabia* **2023 – Present**

- Esnad: Designed the mobile app, dashboard, and landing page for an HR and field task management platform with GPS tracking.
- Al-Tahawwul Digital Hub: Designed dashboard interfaces for the Royal Commission for Riyadh City.
- RivTrading: Built a Framer landing page for a trading education brand.
- MediscaGroup: Designed an online store with product discovery and checkout flows.
- Other projects: Therapy Gate mental health app and website, a real estate website for a Georgia-based company, and Adama Energy's solar services website in Webflow.

EDUCATION

B.Sc. in Media Science — Multimedia & Internet

International Academy for Engineering and Media Science (IAEMS)

- GPA: 3.92 / 4 — Excellent with Honors | Graduation Year: 2023
- Graduation Project: MindShift, a mental health app designed in Figma and built with Flutter and Firebase.

INTERNSHIPS

UI/UX Designer — ScholarX (Remote)

- Contributed to the company website design as part of the UX team.

UI/UX Designer — CodSoft (Remote)

- Designed login screens, an e-commerce flow, a restaurant menu, and a newsletter template.

Flutter Intern — Transport Information Technology

- Built MindShift using Flutter and Firebase as part of the internship and graduation project.
